? THE REAL QUESTION.

The real question of disease is "Can I be cured?" If you or anyone dear to you is losing strength, flesh, energy and vitality, if you are wise you will not spend time trying to figure out just what name to call the disease by.

It is almost impossible to draw the line where debility and weakness merge into consumption. Your trouble may not be consumption to-day, but you don't know what it *may become to-morrow*. Hundreds of people have been restored to robust health by Dr. Pierce's marvelous "Golden Medical Discovery" after reputable physicians had pronounced them consumptive beyond hope.

Were they in consumption? Nobody can ever know. The important point is that they were hopelessly ill but this matchless "Discovery" restored and saved them.

"I was not able to do hardly any work at all," says Mrs. Jennie Dingman, of Vanburen, Raikaska Co., Mich., in a most interesting letter to Dr. Pierce. "I had pain in my left side and back, and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough; I got so bad I had to be in bed all the time.

"My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We thought we would try Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough was stopped and it have had no more of it returning. Your medicine is the best I have taken."

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain sealed envelope, absolutely free. His nearly 40 years experience as chief consulting physician of the Invalids' Hotel, at Buffalo, N. Y., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is donig wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol
Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I get a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

THE CASE OF NAN PATTERSON.

Nan Patterson, who was released in New York yesterday on her own recognizance, is virtually free, as it is generally believed that she has been arraigned the last time on the charge of killing Caesar Young. A synopsis of her meteor-like career is interesting:

Young, a bookmaker, was riding in a hansom cab with Nan Patterson, a former chorus girl, on the morning of June 4, 1904, in New York, when, at the corner of West Broadway and Franklin street, at 8:30 o'clock, the driver heard the report of a pistol in the cab. Without looking inside of the vehicle to see what had happened—so he afterward testified in court—he drove to the nearest police station, and there Nan told the officers that Young had shot himself during the scuffle with her, she having tried to take the weapon away from him. Young was on the point of leaving for Europe and would have sailed that morning.

The defense afterward sought to set up the theory that the bookmaker, who had maintained intimate relations with Nan, though he was married, had killed himself in a moment of desperation at the prospect of separation from the woman he loved; while the prosecution maintained that Miss Patterson had fired the fatal shot, being driven to the deed by his avowed determination to discard her. Young had treated Nan with great liberality and, according to the prosecution, had expended on her in the one year their acquaintance lasted not less than $50,000. Before the shooting the couple had visited divers restaurants and taken several drinks.

The first trial began on November 15, 1904, and was brought to a halt after 10 days by the illness of a juror. On December 5 of the same year the second trial commenced, continuing until December 26, when the jury was discharged because it could not agree. Nan Patterson was put on trial for the third time on April 18, and on May 4, early in the morning, the jury was discharged by Recorder Goff because it could not agree.

A related issue was the long-continued chase after Mr. and Mrs. J. Morgan Smith, brother-in-law and sister, respectively, of the accused, who were sought as witnesses in the case of Nan and were also accused of having conspired to extort money from Caesar Young. This charge was dropped after the discharge of the third jury.

Nan Patterson was born in Washington less than 23 years ago. While she was a mere child her father took his family to the country beyond the Potomac to live. Nan grew up on a farm and reveled in rural life as any city-born girl would at that age. She was always athletic and never tired of her romps over furrowed land and long jaunts through the woods.

Those who knew Nan Patterson as the bare-headed woodsprite of Virginia, and even those who knew her as a schoolgirl in Washington a few years later, marvel as they ponder on the transformation that evolved the Nan Patterson of the "Florodora" sextet and the Nan Patterson, prisoner at bar.

John R. Patterson, the girl's father, found it necessary to take his family back to Washington to give the children the education and culture which the name demanded. The Pattersons were prominent. Nan's uncle was a United States Senator—the late J. W. Patterson, of New Hampshire, who served from 1867 to 1873. Her father, John R. Patterson, has held many public offices at Washington, and at the time Nan left the farm to return to the city for her education he was chief clerk to the Supervising Architect of the United States. The Pattersons were related to the Randolphs of Virginia. In this way the girl gets the middle name of Randolph.

Bright and brimful of vitality, Nan Patterson had little trouble mastering her lessons as a schoolgirl, but the life she had led in the country left little fondness for books in her mind, and she gave nearly all of her time to athletic and out-of-door sports, paying only sufficient attention to her studies to grasp the general benefits of each lesson and make her records good before the class. As a mere child Nan Patterson could jump the rope more times than any other girl of the neighborhood and she was the most robust child in school.

When still quite young Nan became "stagestruck," and was encouraged in this idea by her first lover. At the age of 17 years she ran away with and married Leon J. Martin, of Syracuse, who was employed by a railroad on the Pacific slope. The marriage proved unhappy from the start. It estranged the girl from her family from the time and freed her from whatever restraints she had been under up to that time. She turned to the stage. By and by Nan became a member of the "Florodoro" sextext. She had then been on the stage sufficiently long to catch the craving for a life of luxury, of bohemian revelry during the small hours of morning, of finery, carriage drives, champagne suppers and all those things which are the essentials of the "pace that kills."

Everybody knows what it counted for in those days to be a "Florodora" girl, as the term passed. Not a one of the sextet but was a pet of the Rialto—a Cinderella of stagedom. When Nan Patterson went to the Criterion to live it was to dwell in the finest of suites. Bedecked in her smartest frocks of fashion and attended twice a day by professional hairdressers and others whose arts are employed to fill the gap between nature and vanity, her dreams of triumph on the stage were to her mind beginning to materialize.

It was an abrupt leap from all this to the tragic climax in the girl's life. The "Florodora" company started on the road, and Nan Patteroon met Frank T. Young, known throughout the world of sports as Caesar Young, on the train as she was going with the company to San Francisco. A flirtation started during the trip.

Caesar Young's pockets bulged with bank bills. His generous hand never wearied with pulling off colossal rolls to pay for the suppers, the wine, the growns, the thousandsof pleasures Nan Patterson's heart delighted in, and she yielded so completely to the infatuation of so gallant an admirer that she lost even that ambition to win fame which had misdirected her life at the age of 16,

A divorce from her husband, Leon J. Martin, was obtained in San Francisco. She knew that Caesar Young was married—he had told her so the moment he met her on the train going to San Francisco. But this daring plunger on the turf, who had his string of race horses and who had money to spend and spent it like a lord, interested Nan Patterson more than any other man had ever done—more even than the popular member of the diplomatic corps at Washington, a favorite in society there and in New York, who had paid attentions to the actress in that city.

Young always referred to the actress as "the little girl" when chatting with friends, and never made any secret of the fact that he was quite as much lost to her charms as she was hopelessly infatuated with him. How intensely they loved each other, particularly how intensely Nan Patterson loved Caesar Young, is strikingly illustrated in one of the last letters she is supposed to have written to him. That letter was written a short time before the shooting and was as follows:

Dearest: I failed to see you today, and am so disappointed. I am sorry that you are angry with me. I could not live without you and you must not leave me.

I know she wants to separate us, but it can't be. I will not let you leave me. Sometimes I feel desperate enough for anything. I would rather we were both dead than you should forsake me. I must see you tomorrow and we will be happy once more together. With lots of love. NAN.

"I Thank The Lord!"

cried Hannah Plank, of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at E. S. Leadbeater & Sons' drug store; 25c.

Strictly Genuine.

Most of the patent medicine testimonials are probably genuine. The following recently appeared in the Aitcheson (Kan.) Globe: "Joe Tack, a well-known engineer, running on the Missouri Pacific between Wichita and Kiowa, lately appeared in a big one, with a picture, and when he was in this office today, we asked him about it. He says he had terrific pains in his stomach, and thought he had cancer. His druggist recommended Kodol and he says it cured him. He recommended it to others who were also cured." Kodol Dyspepsia Cure digests what you eat and cures all stomach troubles. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick streets.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, MAY 13, 1905.

RICHARD CROKER has lost two sons within the past few months. One was killed in an automobile accident in Florida and another was found dead on a railroad train in Kansas Thursday night. The ex-Tammany chief, while in possession of millions, is having his sorrows as others. Beginning life with neither family name nor fortune upon which to rely, he has amassed sufficient wealth to enable him to spend the evening of his life in a princely manner. But the trail of the serpent, from which none seem to escape, has poisoned the period which he had doubtless often anticipated, when divorced from business and the many annoyances of active political life, he could end his days in a rural retreat far from the madding crowd. But riches are no safeguard against sickness, death and gnawing anxieties. His children, born in affluence, were not called upon to struggle against poverty, and not having been tutored in the school of responsibility, self-denial and toil, like many others equally unfortunate in having been born with silver spoons in their mouths, cast their eyes upon the pleasures of life more than its serious issues, as was evidenced by the purchase of $5,000 bulldogs and other extravagances. The young man who was hurled from a rapidly-moving automobile was the first victim of his unfortunate surroundings, and his brother who left the Chinese resort in Kansas to die upon a train was equally ill-starred. Mr. Croker is now, in the sere and yellow leaf, suffering from ills which accompany the close of life. He has attained a universal notoriety, cheered by thousands and regarded with aversion by equally as many more by reason of the bad blood engendered by politics; but friend and foe alike sincerely sympathize with him in the sorrowful burdens under which he is laboring in his old age, when he had hoped for ease and quiet surroundings.

FROM fifteen hundred to seventeen hundred children in Chicago have left the public schools because wagons in charge of non-union drivers brought coal to the school buildings. The boys are being led by a fifteen-year-old youth. This may be looked upon smilingly by those who are interested in precocity, but it is an ill omen, all the same, and an index of what is likely to be evolved when these youngsters shall have reached their majority. Children are imitators of men, and the trend of their minds is often seen in their diversions. Where contentions and disorders are juvenile characteristics and attempts are made to imitate men who set bad examples, it may be safely inferred that as the twig is bent so is the tree inclined, and it is not difficult to foresee the consequences. The youth who is the moving spirit in the strike is now in the hands of the police. This is what he wanted, as the cheap notoriety he has attained will render him topheavy with self-importance for a long time. Were he made to face a schoolmaster of the same determination as the pedagogue who was pitted with Midshipman Easy more beneficial results would follow.

WHEN the Panama Canal proposition was pending in Congress the descriptions of the isthmus suggested the Garden of Eden. It was admitted that the employes of the French company died in large numbers, but it was said Americans were not Frenchmen and sanitary science had made great strides in a quarter of a century. It was also asserted that the climate was lovely, yellow fever could be easily suppressed, and as every man would be encased in a mosquito-proof cage no one would have malaria. Some unfortunate Americans who thought themselves lucky to get employment on the canal have survived and got home. Their accounts of the food, the water, the barracks, the climate, and the prevalence of disease and the death rate do not support the roseate pictures drawn in advance by the canal enthusiasts.

DR. WILEY, of the Bureau of Chemistry, thinks the ordinary limit of human activity will soon be ninety instead of seventy years. The chief aids to such a result, he affirms, are heredity, temperance, work and play—in other words, a rational life. Of these necessary elements all except one—heredity—are, or should be, within the individual's control. Science is adding greatly to the span of life, and when its aid is supplemented properly by the individual, centenarians will be so common as not to excite remark. The difficulty lies naturally with the human element in the factors and the preponderance of inclination and desire over the reason and judgment.

MRS. Virginia C. Fletcher, widow of the late Addison Fletcher died on the 5th inst., at her home, just south of Front Royal where she was born on July 23rd, 1833. Mrs. Fletcher was a Miss Criser and all her life was spent in the house she died.

From Washington.

[Correspondence of the Alexandria Gazette.]

Secretary Morton admitted yesterday that he is going to leave the Cabinet before cold weather, but had not decided exactly when. The belief here is that he will quit soon after July 1, although he may hold on until after Newberry, who is to become assistant secretary in succession to Judge Darling, has had an opportuniiy to familiarize himself with the routine of the Navy Department work. Secretary Morton it is said will return to the Atchison, Topeka & Santa Fe. The office he relinquished to become a Cabinet officer has never been filled. It has been said that it was being held open for him.

Nan Patterson came home this morning. A crowd of 250 men, women and children, more than usually greets the President when he returns to Washington, thronged the space behind the iron gates and waited impatiently until 7:20 when the woman, her sister and her brother-in-law, J. Morgan Smith, emerged from the vestibule of the New York sleeper, and walked out to the street. Nan's brother, C. H. Patterson, was the only member of the family to welcome the actress home. Nan's father was the first of the party to appear on the platform. His daughter stepped out immediately after him and as a faint cheer was started among the curious waiting throng, Mr. Patterson said: "This is Nan." Nan took her father's arm, bowed and smiled joyfully upon the crowd individually and collectively. As she walked through the gate she paused and said. "Boys, I'm awfully glad to get home. That's about all." The crowd cheered again and the Patterson-Smith party walked through the station, negotiated for two cabs, entered the vehicles and were driven out to the Howard avenue home where the sorrowing mother was waiting for her erring daughter. Feeble from illness, but invigorated and strengthened by great happiness, a white haired woman stood on the shady veranda of a pretty cottage in northwest Washington this morning. Up the street dashed a girl in the full blossom of young womanhood, her face shining with light hearted joy. The older would have brushed to meet the younger, but her tottering steps were restrained. A second later, the girl had leaped up the terrace and the two women locked in a heartfelt embrace. This was the way Nan Patterson came back to her mother this morning. More than a year had elapsed since their last greeting. Almost twelve months of that time the daughter spent in the Tombs, and was thrice tried on the charge of having murdered her lover, Caesar Young.

Advices from Ambassador Storer, dealing with the case of Marcus Braun, special immigrant inspector, who was fined $10 in a Buda-Pesth police court for giving a piece of his mind to a Hungarian detective whom he caught tampering with his mail have arouse indignation at the Department of Commerce and Labor. Commissioner General of Immigration Sargent will take the matter up with Secretary Metcalf in order to assure action on the part of the State Department, which is said to be not clear as to the right of protest, because the status of Braun as a special immigrant inspector is not well defined. Commissioner General Sargent is of the opinion that Bruan should be protected in all his rights as an American citizen, if not as an American official.

The exact business relation between the railway interests and the trusts is to be investigated by the Senate committee on interstate commerce. Summonses were issued this morning for the heads of a number of trusts that have been recently brought prominently before the public. It is expected to disclose what railway preferences have been accorded to or exacted by the special interests. In testifying before the committee today A. C. Bird, vice president of the Gold lines, declared that there is no popular demand for new railway legislation, except as it arose from misguided opinion that new legislation is necessary to prevent payment of rebates or preferences. He said that such discriminations had practically ceased and that if any did exist, all that was necessary was for the Interstate Commerce Commission to enforce the present law. He had no objection to the formation of court with due provision for expediting hearings to which the railways may appeal. "Railway companies will not oppose any provision which will hasten due process of law, so that complainants may have a quick remedy; but railroads' property should receive the same protection as is accorded other property, under the constitution," he said.

An official report received by the War Department this morning by cable from Major General Corbin commanding the Philippines Division, announces that the U. The meeting of the Directors of the Panama Canal Commission, which was to have been held in New York on Monday, has been postponed until Tuesday and the members of the executive committee of the canal commission have changed their date of sailing from New York for the isthmus from Tuesday to Wednesday next.

Policeman Robert A. Phillips, who Thursday night shot and killed Artilleryman George A. Dowrey, in Phoebus, was yesterday sent on to the grand jury and later was admitted to bail in the sum of $1,000. The verdict of the coroner's jury recites that Dowrey was killed by Phillips while the later was on duty and was endeavoring to retake an escaped prisoner. It neither condemns nor exonerates the officer.

A strike among the union carpenters of Richmond is regarded as probable. There is no question of wages at issue, but a demand has been made that only union men be employed by the builders. A large majority of the master builders have adopted a resolution refusing to recognized this demand and pledging themselves not to employ any carpenters who strike because of their refusal. About thirty carpenters have already gone out.

Two daughters of Henry Whittaker, aged, respectively, 10 and 12 years, were drowned in a fish-pond near East Pulaski, in Pulaski country, yesterday. The girls, with a party of their playmates, were wading in the shallow water near the bank of the pond. By degrees several of the children ventured into the deeper water, and the Wittaker sisters finally got beyond their depth and sank. The other children made desperate efforts to save the unfortunate sisters.

Death of Herbert Croker.

Herbert V. Croker, a son of Richard Croker, the New York political leader, was found dead on the southbound Atchison, Topeka and Santa Fe Railway train between Kansas City and Newton, Kansas, yesterday. He had died during the night, evidently from the effects of some drug administered at Kansas City, where he took the train on Thursday night for Bliss, Okla.

The first news of the death of young Croker was received in Kansas City yesterday afternoon, when the local police were requested to hunt for a negro who placed Croker on the train at Kansas City. He was located last night. He is Charles Woodson, a porter at the Coates Hotel. Woodson says that Croker had been drinking when he arrived at the hotel about 8 o'clock Thursday night. After checking a small valise at the hotel, Croker, the negro says, asked where there was a "hop joint." After repeated requests, Woodson says that he agreed to accompany Croker to such a resort. Then they went together to a Chinese resort, where they remained for an hour. Woodson says that he then took Croker directly to the train at the Union Station. Young Croker's valise is still at the check stand at the hotel. Croker did not register at the hotel, and it is not believed that he went to any other hotel during his brief stay in Kansas City. Woodson tells a straight story, and the police do not think that he was guilty of robbing Croker or otherwise abusing his confidence.

Passengers on the train took particular notice when young Croker was assisted into a chair car at the Union station in Kansas City by the negro, because the white man was helpless, as if from liquor. The negro assisted Croker into a seat and then gave him a purse containing a railroad ticket and $19, counting the money out to Croker. The passengers heard Croker say: "Now I want you to send me the rest of it."

The negro asked Croker to write his address, but Croker refused, and finally the negro wrote as Croker dictated. The address was "Bliss, Ok., care of 101 Ranch."

Immediately after the train started Croker fell into a deep sleep, snoring loudly. Later he grew quieter. As the train neared Newton the conductor, who wished to take up Croker's ticket, shook him to arouse him and found him dead. There are no marks of violence on the young man's body.

Further investigation made today leads to the belief that young Croker's death was due to an over indulgence in opium, he, it is believed, having eaten some of the drugs after smoking the pipe.

Wilson, the porter, was examined today. He says that on the way to the "hop joint" Croker met two colored women and entered a saloon with them where they had a bottle of beer. Croker wanted the women to accompany him to the joint, but they refused.

Newton, Ks., May 13.—The verdict in the coroner's jury in the case of Herbert Croker is that death resulted from narcotic poisoning administered in Kansas City in an unknown manner. The remains will be held here pending the arrival of Richard Croker, jr., who telegraphed that he expects to get in Sunday. No marks of violence were found on the body. The coroner states it was simply a case of narcotic poisoning, that no autopsy was necessary.

New York, May 13.—A pathetic feature of the death of Herbert V. Croker was the fact that the young man had left New York for the purpose of building himself up so that he could resist temptation to dissipate that had proved too strong for him. Facing a long period of abstinence on an Oklahoma ranch he concluded to have his last fling in Kansas City; and it proved to be his last fling.

Seven Men Killed by Explosion.

Butte, Mont., May 13.—As the result of an explosion of 100 pounds of dynamite, on the 100-foot level of the Corra mine late yesterday, seven men were instantly killed and one probably fatally injured.

NAN PATTERSON.

As stated in the Gazette of that day Nan Patterson was released from jail on her own recognizance yesterday. District Attorney Jerome announced his decision to free Nan Patterson in a speech in the course of which he declared that during two of the trials of the girl all the evidence in the possession of the district attorney's office had been presented to the court, and that in both cases there had been a disagreement. He said he did not believe that at this time, "in this county, another trial would result in anything else than a disagreement." Then he declared that during the last trial he had information that the members of the jury had agreed that J. Morgan Smith had bought the revolver, that Nan Patterson carried it in the cab and that Caesar Young did not commit suicide. He took occasion to refute published reports as to the cost of the proceedings. Following this line, he declared that the newspapers had made "gross misrepresentations."

Recorder Goff met the eyes of the girl as she walked slowly into the courtroom and took the same seat which she occupied during the trying days of her last trial.

"Nan Patterson," he said slowly, "the District Attorney has seen fit to recommend your discharge. I feel bound to say I fully coincide in the decision. There is nothing I can say in this case that has not already been said; but let me entreat you in your future life to remember the terrible ordeal through which you have passed and to permit every action of your life to be guided by that remembrance. Good-by," and the Recorder bowed his head as he uttered the final word and closed the case.

A moment later the girl was shaking hands with her counsel. Then she walked steadily from the court to find herself in the arms of her father, just outside the door. The crowds in the corridor cheered and the police let them have their way.

Not the least interesting of the day's events and perhaps the great dramatic climax to the troubles of the former "Florodora" girl was the reunion in freedom with her sister, Mrs. J. Morgan Smith, and her brother-in-law, J. Morgan Smith, both of whom were discharged by Justice Cowing, in the Court of General Sessions, after being held on charges of conspiracy in connection with the Patterson case. Smith was also held for contempt of court in failing to obey a subpoena as a witness at the first trial. He was fined $250 and released on this charge. Then came the surprise, for Nan Patterson herself paid the fine out of a $300 check, which had been given her by a friendly newspaper.

Storms in West Virginia.

A terrific storm of wind and rain, which has prevailed for the past eighteen hours, created havoc throughout the Huntington, W. Va., section yesterday. Rumors of loss of life cannot be verified. Above Catlettsburg a torrent washed out 300 feet of the big pipe line of the Triple State Gas Company. As a result the residents of Guyandotte, Huntington, Kenova, Catlettsburg, Ashland, and Ironton, and the smaller intervening towns have been without light.

Many persons dependent upon gas for cooking purposes have been compelled to go hungry. The lightning interfered with the electric light companies. Many of their wires were down for over twelve hours. There was no telegraphic service out of Huntington, the wires of all companies being down, and nearly every long-distance telephone line was also out of commission. Huntington was practically cut off from the outer world.

The unprecedented rise in the Guyandotte river, eighteen feet within twelve hours, carried out the immense boom of Crane & Co., and between 75,000 and 100,000 logs went into the Ohio river. Heavy damage to farmers was reported along the small streams, houses, barns, outhouses and live stock being carried away by the rush of water. All communication with the interior is still cut off, and it will be many hours before the extent of the loss can be ascertained. Railroads are heavy losers from landslides.

A tornado, accompanied by a terrific rainstorm, struck Bluefield, yesterday about noon and lasted thirty minutes. Five dwelling houses were blown down, windows in business houses were shattered, and buildings flooded. The Norfolk and Western round house roof was partly blown off, and several people were injured by falling debris. Communications, with the coal fields is cut off. The extent of the damage there cannot be ascertained, although it is believed it will amount to thousands of dollars.

Storms in Virginia.

Storms almost cyclonic in their violence struck the southwest section of Virginia yesterday, doing damage which will mount into the thousands. There were no reports of any loss of life. Stock was drowned in Giles county, fences destroyed, and the roads almost obliterated, Montgomery and Pulaski likewise suffered from wind and rain. The big stack of the electric plant at Pulaski was blown down and the place last night was in darkness. Wires were carried away, as well as several railroad bridges.

At noon yesterday began the worst rainstorm ever witnessed in Christiansburg and vicinity. For two hours the water fell in sheets, and there was an immense amount of damage done along streams, which were higher than ever known. Fences, bridges, outhouses, and all movable objects in the way of the waters were carried off.

Severe rain and thunderstorms have swept over the vicinity at intervals during the last three days. A dynamo burnt out at the power-house of East Radford Thursday night and the town was in darkness. The rain fell in sheets yesterday and the telephone service was badly injured.

Warships Sighted.

Hong Kong, May 13,—Seventeen warships were sighted on Wednesday evening twelve miles off the Three Kings, the large rocks off the entrance to Honkohe bay, Cochin-China. A number of transports were also seen at Knape Pass, seventy miles north of Kamranh bay, Cochin-China.

London, May 13.—A message to the Telegraph from Tokio confirms the reports of the sighting of seventeen warships off the Three Kings, at the entrance to Honkohe bay, and of transports being seen at Knape Pass, north of Kamranh bay.

Verdict for $13,950.

Pittsburg, Pa., May 13.—The Steiner-Gibney $50,000 breach of promise case was given to the jury in the United States District Court at 3:25 o'clock yesterday afternoon. The jury reached a verdict at 8 o'clock last evening. This was sealed and given to the bailiff. When court convened this morning, the seal was broken, and the verdict, awarding $13,950 damages to the plaintiff, was read in court. Attorneys for the defendant immediately made a motion for a new trial of the case, asking for four days in which to file their reasons. With regard to the $50,000 damages for conspiracy against the Steiner family in the alleged alienation of affections of defendant causing him to make the breach of promise to marry, the attorney for Miss Gibney took a voluntary non-suit, and the case will not go to trial.

Not to be Allowed Counsel.

Moscow, May 13.—The governor of the Province of Vladimir has issued instructions to the local authorities throughout the district not to allow the peasants to apply to barristers to support their cases in the law courts. The reason assigned for this unusual order is because the "barristers" are immoral persons who always try to seduce illiterate people with revolutionary promises. The effort of the order can readily be understood as it will leave the peasants helpless to resist by legal steps any grievances they may have, while landlords will be able to retain their own lawyers without interference.

London Comment.

London, May 13.—The Saturday Review in commenting on the recent speech of President Roosevelt in regard to the regulation of railway rates, says: "Sometime or other the American people will have to face a larger issue than that which divides the country into rival interests of individual capitalists on the one hand and of the public and State on the other. In spite of the capitalistic trusts the principle advocated is likely to gain ground and the President, in asserting the right of the State to prevent railways from arranging rates to suit this or that interest, is on the side of angels."

Upholding the Inspector.

Vienna, May 13.—The American Embassy here is giving its support to Marcus Braum, the United States immigration inspector, who was fined $10 for threatening a police detective he caught tampering with his mail. The actions of the Hungarian authorities are described as being in violation of international rules, and the assertion is made that satisfaction must be forthcoming. The matter has been reported to Washington and the representatives of the United States government are awaiting instructions from home before lodging a protest with the foreign office.

Martial Law in Formosa.

Tokio, May 13.—The proclamation declaring martial law in the island of Formosa, and announcing that a state of siege exists throughout the island goes into effect today. The proclamation of the state of siege was announced as a defense measure. It is understood that the announcement means that the waters about Formosa, will be mined, and the notice is given so that foreign vessels may be on the look out for the mines if they attempt to sail in the surrounding waters.

Editor Indicted.

St, Petersburg, May 13.—The public prosecutor has caused the indictment of M. Notovitch editor of Novosti, and has demanded that he be punished by being sent to Siberia for life. The withdrawal of all M. Notovitch's civil rights is also demanded. The offense charged against the editor is a criticism of state institutions.

Admiral Nazimoff Assassinated.

St. Petersburg, May 13.—Admiral Nazimoff, of the Russian navy, was assassinated today by a former orderly, who shot him with a revolver. The orderly had been dismissed from the service and was to be sent to the front in Manchuria. It is supposed the act was committed in a spirit of revenge.

Will Not Come to America.

London, May 13.—Richard Croker, father of Herbert V. Croker, who was found dead on a train at Newton, Kansas, has wired to the correspondent of the Publishers Press from Sandy Ford, a remote spot in the Dublin mountains, saying: "I am not going to America."

Twenty-two Men Killed.

Buda-Pesth, May 13.—An explosion occurred today at the Almasy coal mine near Resicza during the blasting operations, killing 22 men, and injuring one.

Death of a Survivor of 1812.

Utica, N. Y., May 13.—Hiram Cronk, sole survivor of the war of 1812, died today, aged 105.

New York Stock Market.

New York, May 13. 11 a. m.—After the opening the market became quietly strong. Foreign houses said the declines cabled from the other side were misleading, and while there has been some continental and provincial liquidatition, the weakness resulting was only temporary and it was impossible to buy stocks there at the price quoted in the cables. Important speculative interests were the principal buyers of stocks on the early decline and during the first hour. There was no selling pressure from any source, except the usual Saturday closing of contracts by room traders. Government bonds unchanged.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid, of Harmony, Me. "For the past five years, however, on the slightest sign of a Cough or Cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and $1.00; guaranteed at E. S. Leadbeater & Sons' drug store. Trial bottle free.

Tragedy in a Theatre.

Pittsfield, Mass., May 13.—A tragedy in real life, as never been seen before on the stage in Berkshire county, was enacted last night, at Cook's Hall at Glendale Stockbridge before an audience of 300 people. Daniel Lapy, 23 years old, in the midst of an entertainment, walked through the crowded aisle to the stage, and with intense dramatic effect, stabbed himself three times with a large jack knife. It is believed he cannot live.

Just before the steel pierced his lungs, he raised the knife over his head and shouted to the audience, "Drink done it. There was no one to blame but myself. They are all against me." Then he drove the knife with telling effect into his right side once and twice in his left side. He fell forward to the footlight. The knife dropped to his side. In an instant, the house was in an uproar. A score or more men and women fainted.

Others shouted and rushed pell mell to the doors. Several with cooler intellects barricaded the doors leading from the hall, and no doubt saved many lives, for if the wild mob had rushed down stairs there would have been some severely injured. A few of the older ones had the presence of mind, to go up to the stage and see if Lapy was actually hurt. He was then semi-conscious and could give no coherent statement as to why he had tried to take his life.

After Lapy had been removed, to his home, the programme was resumed. Later the young people had a dance. So far as known Lapy had had no love affair, and was not in any serious trouble. It was believed that he was temporarily insane when he jabbed the knife into his side.

Prisoners Escaped.

Casper, Wy, May 13.—Deputy Sheriff Webb was overpowered in the county jail last night and disarmed by Ed. Lee, Martin Tour and William Warlow, prisoners, who had escaped after securing guns, ammunition and clothing from the sheriff's office, and horses and saddles from the stables. The party rode away in the direction of the Casper mountains. Deputy Sheriff Sartog and a posse started in pursuit, over taking the bandits near the summit of the mountains, seven miles from town, where a battle ensued. Citizens with field glasses witnessed the fight, but night came on and the outcome is not known. A second posse has left Casper and a third will join the chase.

Chicago Strike.

Chicago, May 13.—The Team Owners Association held a special meeting at noon today, to consider the final position in the teamsters strike and decided to deliver to the strikers committee tonight their ultimatum that they insist on the contracts with "truck houses," being observed. Unless the labor men at Sundays meeting recede from their position that the Team Owners Association shall remain "neutral" in the present trouble, this action will mean one of two important moves, the larger spread of the strike or its practical abandonment.

TELEGRAPHIC BREVITIES.

Joe Macias, the well-known boxing promoter, died at 6:25 a. m. today at the Medico-Chirurgical Hospital, in Philadelphia.

Messages received at St. Petersburg from Moscow state that there is a great exodus of people from the city in progress, the population is alarmed over the reports of impending trouble. Serious disturbances are reported in the districts of Smolensk, Tomsk and Bessarabia.

As a result of a jealous quarrel early this morning in a double tenement house on Callowhill street, Philadelphia, Abe Wornerg, a cigar maker, was stabbed to death with a bread knife by James Daly, an ex-convict, who escaped. The difficulty was the outcome of jealousy over a woman.

At St. Mary's Hospital Jamaica, New York, it was stated this morning that the condition of Grover Cleveland Fuller, the jockey who was thrown during the running of the excelsior handicap on the opening day at the Jamaica track is critical and but little hope is entertained for his recovery.

Altogether a hundred and ten bodies of cyclone victims have been brought into the temporary morgues at Snyder, O. T. Three more were found during the night. Conditions in town were more uncomfortable today than at any time. Yesterday a cloud burst submerged the entire valley in which the town lies, and the water was neck deep in places.

Strike Among Children.

Spread of sympathetic strikes among public school children received a new impetus in Chicago yesterday. Pupils of the Carter H. Harrison School, went on a strike when wagons of the Peabody Coal Company arrived at the building to deliver coal. The Peabody Company is a member of the Employers' Association, and has been active in delivering coal with nonunion teamsters to firms antagonized by the strikers. Police were still on guard yesterday at the Hendricks public school, where a strike similar to that at the Carter Harrison School had not entirely subsided.

Henry Hanson, fifteen years old, the alleged leader of the strike at the Harrison school, was arrested, charged with disorderly conduct. Principal W. C. Payne declared that about 1,500 of the 1,700 pupils were out. He said he had advised many of the parents to take their children from the school until peaceful conditions were restored.

Mount Vernon Regents.

The council of the Mount Vernon Ladies' Association, in session there yesterday, discussed the steamboat contracts in connection with the landing of passengers at Mount Vernon.

The vice-regents received the French delegates to the International Railway Congress, who made a pilgrimage to the tomb of Washington.

Among the interesting relics reported as donated to Mount Vernon is the wedding dress of Nellie Custis, which was given by Marie Worthington Conrad, of Louisiana, through the vice regent of that State. The dress is of white silk and lace, daintily made, and has sleeves not unlike the style in recent years. A number of books which had belonged to General Washington were presented through the vice-regent of New York.

By the explosion of 100 pounds of dynamite on the 1,500 foot level of the Coro mine, one of the Heinze properties near Butte, Mont., yesterday afternoon, seven men were instantly killed and one badly injured.

News of the Day.

President Roosevelt yesterday approved the recommendation of the Secretary of the Navy that the body of John Paul Jones be buried at Annapolis, Maryland.

James H. Hyde, of the Equitable Life Assurance Co., has made an affidavit in New York regarding the fancy dress ball at Sherry's, which primarily started all the trouble in the company's affairs. Under oath, Mr. Hyde says: "Said ball was in all respects a dignified and artistic entertainment. Nor were there any improper or scandalous occurrences at the ball, or any can-can dance."

The American railway appliance exhibit was closed at Washington yesterday. The President sent word that he would be unable to attend. A reception and garden party were given in the evening by Mrs. Roosevelt on the grounds of the White House to the delegates to the congress. The President and Vice President Fairbanks were present.

The First Regiment of the District National Guard, which was disbanded by general order No. 5 on the 8th instant and transformed into separate battalions, may be recognized and called either the First or the Third Regiment. All the officers except Col. May of the disbanded regiment bow to the general order. It is not known what action, if any, he will take to test the validity of the disbandment.

Sensational testimony as to the secret code which he said was used by the Armour Car Lines in making rebates, including code words for each of the commissioners themselves, was given in Chicago yesterday before the Interstate Commerce Commission by H. Streyckmans, formerly employed by Armour & Co. as stenographer. Streyckmans testified that favored customers received rebates of 50 per cent., and that the Armour's profits from icing refrigerator cars ran as high as 600 per cent. Streyckmans read from the book some of the code words and their meaning.

The Oklahoma Horror.

So far as can be ascertained 120 lives were lost by the tornado at Snyder, Oklahoma, last Wednesday night.

The Frisco Railroad from the depot to the limits of the corporation in each direction is strewn with timbers, pieces of brick and stone and other things cast there by the storm. It required considerable work to clear the tracks.

Pitiable scenes of want and suffering were seen in Snyder yesterday on all sides. Much confusion still existed despite the efforts of hundreds of outsiders to aid the victims of the tornado. On Thursday night many who had lost everything they possessed went hungry and practically unprotected from the cold.

Many bodies lying in temporary morgues remained unidentified, while among the injured dozens who suffered from ugly wounds or broken limbs were without proper medical attention. Others still were missing, and an exact list of the casualties was not to be had.

During a heavy wind yesterday some of the injured were conveyed on stretchers from the improvised hospital to various places. Rain began falling furiously and the wounded people were drenched. The wind subsided and the injured were returned to the building from which they were taken.

All the graves dug for victims of the tornado are filled with water, which must be bailed out before the bodies can be buried.

All Thursday night two dozen men worked incessantly preparing the bodies of the victims for burial, and yesterday dozens of funerals were held. Plenty of coffins had been sent, but wagons and drays had to be used in carting the remains to the cemeteries. All day long yesterday crude hearses passed through the wreck-littered streets. Poorly clad men, women and children, most of whom had lost some members of their family and had suffered from wounds, exposure and hunger wandered here and there trying to find some missing loved one, or went from morgue to morgue in an endeavor to identify them among the dead.

We have received from the facility and graduating class of the University College of Medicine of Richmond an invitation to attend the commencement exercises of that institution to be held in the Academy of Music, Richmond, on Thursday evening, May 18th, at 8:30 o'clock. The invitation is gotten up in a most artistic manner, beautifully printed on parchment.

The rapid growth of the University of Virginia in popular good will and enrollment is a matter of pride to Virginians, who are especially favored in having it as a part of their public free school system. Its enrollment this season is 706, fifty-three per cent. being Virginians. That Virginians may pursue their studies at the University, in the Academic Department, free of tuition charges, is of inestimable value to the people of this State.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Best Cough Medicine for Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. Death of a Printer.

A telegraphic dispatch was received in this city this morning from Richmond announcing the death in that city about 12 o'clock last night of Mr. Stephen Woolls, a native of this city. The deceased was a son of the late William Woolls, and in early life he was an apprentice in the Gazette office. When he reached his majority he became a compositor on the old Congressional Globe in Washington and later worked on the Southern Churchman when that publication was issued in Alexandria. In 1879 the Churchman was removed to Richmond, since which time Mr. Woolls had lived in that city. He was 55 years old, and leaves a widow (formerly Miss Stoutenburgh) and four children. Mr. Woolls's death was the result of paralysis, he having been stricken a few weeks ago. The deceased was a faithful workman and a good citizen, and his many friends and acquaintances in his old home will regret to hear of his death.

Negro Lynched.

Robert Weatherspoon, a negro, who recently served a term in the Missouri penitentiary, was hanged by a mob in the public square at Belmont yesterday evening and the body riddled with bullets as it swayed in the air. At 7 o'clock yesterday morning Weatherspoon went to the farm of Judge Ford J. Hess, living near Belmont, and compelled Mr. Hess to hitch a horse to a buggy and furnish him a saddle horse in addition. He then commanded Mrs. Hess to get into the buggy with her child and drive with him to the residence of Rev. Perry Thurman, a colored preacher, leaving the saddle horse. He was heavily armed, and Judge Hess could offer no resistance. After arriving at the home of Rev. Mr. Thurman Weatherspoon sent Judge Hess word that on payment of $600 he would release the mother and child, and on his failure to send him the money would kill them. A posse of Kentuckians, heavily armed and under the leadership of Marshal Zimmerman, came over from Columbus, determined upon the capture of Weatherspoon. The posse searched for him all the afternoon, and finally effected his capture at 6 o'clock yesterday evening.

A report has reached Danville from Pelham, N. C., a few miles distant, that Ada Lovelace, aged eight years, was killed there by lightning while lying on a bed by the side of her grandfather, Calvin Groom. Gladstone and Little Dorothy.

Good housewives often have trouble with servants who cannot get up, but I doubt if it ever occurs to them, as it did to Miss Dorothy Drew when she was not more than seven, that the Scriptures emphasize the vanity of early rising, says the London Tatler. Dorothy positively refused to get up, and her grandfather, Mr. Gladstone, had to be called to overawe the rebel.

"Why don't you get up, Dorothy?" he asked.

"Because the Bible doesn't approve of early rising, grandfather," was the unexpected reply.

"Really, Dorothy," said the astonished statesman, "you must be mistaken."

"Oh, no, I'm not," she persisted. "Here it is." And she turned up the second verse of the One Hundred and Twenty-seventh Psalm, "It is vain for you to rise up early." The old parliamentarian had nothing more to say. The argument floored him.

Patchouly.

The introduction of the perfume called patchouly was caused by the desire of French shawlmakers to deceive their customers. When shawls were first brought from India they were perfumed with patchouly, an extract of an Indian plant. The French soon learned to imitate the shawls to perfection, but the patchouly bothered them, as they could find no substitute for it, and this fact was used as the surest means of distinguishing the genuine India shawls from the French counterfeits. At last somebody discovered the secret and brought a quantity of patchouly to France. For a time the discoverers kept the matter to themselves and reaped a harvest. Then some one gave away the secret. The perfume soon became popular and has never since passed completely out of use, though several times superseded temporarily by other perfumes.

Six Great Men.

From 1730 to 1830 is the most memorable period in modern history. Six great men made their marks—Napoleon, whose chief feature was ambition; Nelson, courage; Washington, independence; Wellington, thoroughness; Pitt, statesmanship, and George Stephenson, ingenuity. Washington and Nelson have secured the affection of posterity, Washington and Stephenson have done the most for mankind, Wellington enjoys the respect of all, Pitt has our admiration, and Napoleon will forever excite the wonder of the world. Napoleon endeavored to remodel Europe; George Stephenson succeeded in doing so. Washington and Stephenson together had independence, observation and ingenuity—the three qualities which are of the most service to humanity.—London Truth.

Largest of All Bibles.

Largest of all Bibles in the world is the Kahgyur, or Buddhist scriptures of Tibet, which consists of 108 volumes of 1,000 pages each. Each volume weighs ten pounds and forms a package twenty-six inches long, eight inches broad and eight inches deep. This bible requires a dozen yaks for its transport, and the carved wooden blocks from which it is printed need rows of houses, like a city, for their storage. A tribe of Mongols paid 7,000 oxen for a copy of this bible. In addition to the bible there are 325 volumes of commentaries, which are necessary for its understanding. There is also a large collection of revelations which supplement the bible.

The Paris Alibi Office.

In Paris there is an institution which calls itself an "alibi office." It undertakes to prove that when one is really hiding in Paris he is at Biarritz or some place equally remote. The patron of the "alibi office" writes letters ostensibly from any address and the "alibi office" has them actually posted there, so that when they arrive in Paris they bear the right postmarks. This agency, moreover, offers its subscribers the advantage of an address in "the most aristocratic quarter of Paris" to which their correspondence can be sent, which will be opened by the management when the subscription is not forthcoming.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Man's Reasonableness

is often as great as women's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured and can now perform all her household duties." Guaranteed by E. S. Leadbeater & Sons, druggists, price 50c.

There Is a Difference.

The difference between Kennedy's Laxative Honey and Tar and all other Cough Syrup is that it moves the bowels, thus expelling a cold from the system. This relaxes the nerve tissues and by its healing effect on the throat and lungs the cough is relieved—cured entirely. Kennedy's is the original Laxative Honey and Tar and contains no opiates. Good alike for young or old. Tastes good. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick street.
